PROFESSIONAL SUMMARY

MCA student at SASTRA University with hands-on experience in Python, Django, and Machine Learning. Built predictive analytics solutions using IBM Cloud and Watsonx.ai Studio. Completed IBM Virtual Internship in ML. Looking to contribute to software development or data-driven roles with real-world impact.

EDUCATION

SASTRA University, Thanjavur | Master of Computer Applications (Online) | 2025 – Present (Expected: 2027)
CGPA: 9.5

Fatima College, Madurai | B.Sc. Information Technology | 2022 – 2025 | CGPA: 8.6

ACADEMIC PROJECTS

- **Integrated Medical Supply Chain Management System (2025)** – Developed a Django and SQLite based supply chain platform. Automated 95% of supply tracking, reduced processing time by 40%, and built role-based dashboards using Chart.js achieving 99.5% data consistency.
- **E-Book & Audiobook Platform (2024)** – Built a Python Tkinter based digital reading platform during final year at Fatima College. Integrated custom TTS engine for accessibility and achieved 98% test coverage through rigorous unit testing.

WORK EXPERIENCE

IBM – Virtual Intern | Jun 2025 – Aug 2025

- Built and deployed machine learning models for industrial predictive maintenance using IBM Cloud and Watsonx.ai Studio. Achieved 98.5% prediction accuracy through data preprocessing, feature engineering, and model evaluation, while designing an end-to-end ML workflow to automate equipment failure forecasting and maintenance scheduling.

Google Developer Groups – Member, Madurai | May 2026 – Present

- Part of a global Google Developer community focused on hands-on learning and tech collaboration exploring Machine Learning, Cloud Computing, and Web Development through community-driven events to grow beyond academic exposure into real-world tech ecosystems.

CERTIFICATION

- **MongoDB University** – Database Development.
- **TCS iON** – Career Edge: Young Professional.
- **Deloitte** – Data Analytics Job Simulation.
- **IBM SkillsBuild** – RAG with LangChain.

TECHNICALSKILLS

- **Programming:** C, C++, Java, Python, VB.NET
- **Web Development:** HTML, CSS, Django
- **Databases:** SQL, MongoDB
- **Data Science & ML:** Data Analysis, Preprocessing, Feature Engineering, Model Evaluation
- **Tools & Technologies:** Git, GitHub, Tkinter, Chart.js, IBM Cloud, Watsonx.ai Studio
